

THE GAZETTE.

THE GREAT STRIKE.

TO REDUCE TAXES.

NOTHING NEW.

DECKS CLEARED FOR ACTION.

WEDNESDAY, MARCH 7.
HON JOHN A. BENNETT FOR JUDGE.

The Gazette publishes this evening calls numerous signed by the members of the bar of the Twelfth Judicial Circuit, the supervisors of Rock county, and the electors of Rock, Green and Jefferson counties, requesting Hon. John A. Bennett of this city, to become an independent candidate for re-election as circuit judge this spring. It is unnecessary for us to add anything to the strongly religious terms used in these calls in the way of characterizing Judge Bennett's administration of justice in this circuit. We need only to refer to his record during his present term of office, which shows him to have been actuated in all cases by the sole motive of meeting out justice to parties litigant, a fact most clearly evidenced by the remarkably large percentage of his decisions affirmed by our supreme court. The calls above referred to, and the letter of acceptance by Judge Bennett, will be found set out in full in this issue.

The Colored Reformatory Industrial School of Nashville, Tenn., is nearly completed, and will be opened on April 1. It is being erected by an organization whose constitution reads: "The Universal Congregational Methodist Church of the United States of America," and which has for its object the betterment of the colored race spiritually and morally. It hopes to attain this object by having connected with each church a temperance hall, a home manufactory, or an institution of learning. The Nashville institution will open with about one hundred young colored people of both sexes.

The New York republican state committee will meet a couple of weeks hence to determine the date of the state convention, which is likely to come some time in the latter part of April or the first week in May. Several cities are actively competing for the honor, but Syracuse seems to have the call. As this is the home of Senator Frank Biscoe, his friends are claiming the selection of Syracuse for holding the state convention means the election of delegates favorable to the nomination of Biscoe for president.

Representative Burrows, of Michigan, who is one of the members of the ways and means committee, that were excluded from the councils of the committee while the tariff bill was in process of incubation, has given the essence of the bill in a nutshell. He says it should be characterized as a "bill to increase importations, augment the revenues and destroy American industries." This is about the size of it.

Neal Dow, the great leader of the prohibitionists, and champion of the "third party" movement, says he is now eighty-five years old; that he will never again be a candidate for office, but that prohibition will go on just the same; that its triumph in the end is sure. No doubt General Dow is correct in his prediction, but the cause of prohibition will hardly progress with such unobtainable alliance as that at Portland on Monday.

All accounts from Rhode Island agree that the new prohibitory law of that state is a sad failure—that there are many more saloons now than there were under the license system—that, in fact, the only effect of prohibition has been free whisky, saloons and increased drunkenness. This is another proof that prohibition does not prohibit.

A secret circular has been sent out by the Massachusetts democratic state committee to every town committee, directing local workers to get possession as far as possible, in the coming town elections of all offices "having to do with registration." This move, the document indicates, has an important bearing on next fall's election.

A regular Northwestern "blizzard" struck Maine last Monday. Reports from that state indicate that the allied democratic-prohibition (that sounds well in this latitude) party was buried under several feet of republican snow. They will hardly be extricated before the sixth of November.

The fire losses in the United States and Canada during February reach the enormous aggregate of \$11,213,660, or over \$4,000,000 above the average February loss for thirteen years. There were twenty-one fires of over \$100,000 loss each.

The republican gains in the Maine municipal elections on Monday are not very pleasing to the democratic reader.

Chicago has contributed \$20,000 for the relief of the Mount Vernon cyclone sufferers.

Congressman Randall is preparing to "sit down" on the Miller tariff bill.

Bruce Up.
You are feeling depressed, your appetite is poor, you are bothered with headache, you are drowsy, nervous, and generally out of sorts, and want to brace up. Bruce up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Frank Sherer & Co's. drug store.

Plenty of 25-cent rubbers at the bargain shoe store; ladies' misses' and children's same price, best and spring heel. Try a pair.
\$200,000 to loan at 6 per cent interest. Saxe & Hoekens.

All Railway Companies Refuse to Handle C. B. & Q. Freight.

The Wabash People Rather Have a Lawsuit than a Strike.

The Northwestern Grievance Committee in Session this Afternoon.

THE STRIKE.
Special to the Gazette.
Chicago, March 6th.—Not one road responded this forenoon to the Burlington's request to handle its freight. The Wabash and the St. Paul refused point blank. The loaded Burlington cars had to be handled back. A Wabash official said he would rather have a lawsuit than a strike on his road. All other roads say they will refuse to handle Burlington freight until the strike is settled.

The grievance committee of the Northwestern railway meets this evening. There is no telling the result.

BOARD OF TRADE FAILURE.
Special to the Gazette.
Chicago, March 7th.—D. R. Brassey & Co., of the board of trade, failed to-day.

CURRENT EVENTS.
A Condensation of Interesting Dispatches from Various Parts of the Globe.
Petroleum reached the highest price at Pittsburgh Tuesday since November 1, 1887.

Chicago, March 7th.—The Northwestern railway meets this evening. There is no telling the result.

Several of the girls and one of the women teachers of the Northwestern Seminary at Kalamazoo tried to embezzle a burglar who entered the institution Monday night, but he escaped after cutting Miss May Widdowme, of Grand Rapids, in one arm.

DEMOCRATS ORGANIZING.
Leaders of the party in the Northwest form an Association to promote Campaign Work.
Chicago, March 7.—The Democratic Association of the Northwest was organized yesterday at the Palmer House by chairman of the Northwestern Democratic State Central committee. There were present J. M. Weston, of Michigan; Edward H. Hunter, of Iowa; J. W. Weston, of Wisconsin; J. E. Wright, of Wisconsin; George N. Hayes and W. J. Mize, of Illinois. Letters were read from the chairman of central committees of the Northwestern, Indiana, Illinois, Ohio, Michigan, Minnesota, Wisconsin, Missouri, Nebraska, Iowa and Kansas will be the states interested in the organization. J. M. Weston was elected chairman, and it was stated that the object of the association was for the promotion of campaign work in the Northwestern States. J. M. Weston was elected permanent president and W. J. Mize secretary and treasurer. These gentlemen, with E. H. Hunter and J. E. Wright, were elected as executive committee. The business of the association will be to prepare and distribute campaign literature.

IOWA GENERAL ASSEMBLY.
All at Sea on the Maximum Tariff Bill—Means were known.
Des Moines, Ia., March 7.—The Senate spent yesterday afternoon in the consideration of the tariff bill, providing for a soldiers' relief fund by levy of a tax of three-tenths of a mill by county supervisors, the money to be expended by a commission of G. A. B. men for the relief of dependent soldiers and their families. At the hour of adjournment no conclusion had been reached. At 2 o'clock the special order, the Committee National bill, was taken up and the discussion was reopened on the question of striking out the words "undue and unreasonable" in the act prohibiting the giving of any preference or advantage to any person, firm or locality. Senators Woolson and Sweeney will close the discussion this morning.

The House spent the entire day discussing the maximum freight bill, but no vote was reached.

Shot by a Robber.
Burlington, Pa., March 7.—Tuesday morning a masked man named Kimball jumped over the railing of the Bradford National Bank and seized the money on the desk of Cashier Townsend. He shot the latter through the hip, on his attempting to hold him, ran from the bank, and after being pursued some distance by citizens, escaped and shot A. B. Betch, a butcher, and then killed him.

Reduced Rates for Farmers' Institutions.
For the closing institute, to be held at Madison from March 26th to 30th, the Chicago & Northwestern railway will sell tickets to Madison and return from all points in Wisconsin at rate of one fare for the round trip. These tickets will be sold on March 25th, 27 and 28th, and be good to return until and including March 30th. For tickets and other information apply to the agents of the Chicago & Northwestern Railway.

For a bang up, good wearing shoe, the Rock Bottom, at Mior's, O. P. O., for \$2.50, take the cake.
House that cost \$2,000 with barn, two cisterns, all on two full lots and centrally located, for \$1,600. O. E. Bowles.

The New Internal Revenue Bill Proposed by the Democrats.

A SYNOPSIS OF THE MEASURE.

WASHINGTON, March 7.—The new internal revenue bill was submitted by the Democratic majority of the Ways and Means Committee to the full committee yesterday. It means by removing the tax from tobacco on July 1, 1888, after which date manufacturers of cigars will pay a special tax of three cents per pound, and dealers in tobacco shall each pay one dollar annually for a special license. Backs rebated to the full amount of the tax will be allowed an original and unbroken pack of cigars held by manufacturers and dealers on July 1. The statute and all the laws imposing restrictions upon the sale of tobacco are repealed.

Wherever minimum punishments are laid down for infractions of internal-revenue laws, the statutes they are abolished, and it is left to the discretion of the court to its punishment, not exceeding the maximum limit fixed by the statutes.

Persons arrested upon warrants under the internal-revenue laws must be taken before a designated judicial officer in the county of arrest, or if there be none, in another county adjacent to the county of arrest, and the judicial officer shall have power to make the preliminary examination and discharge, admit to bail or commit to prison the person arrested. This section does not apply to the Indian Territory.

The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may compromise civil or criminal cases and reduce or remit fines, penalties for assessments under the internal-revenue laws.

When the returns are not made or are made fraudulently the collector may enter the premises of any one having taxable property and property claims, upon which the tax has not been assessed with a penalty of 25 per cent, and interest at 10 per cent.

All frauds made under any fruit are brought under the provisions of the act of March 3, 1887.

When a distillery is seized the machinery and apparatus must be sold without being mutilated or destroyed. Distilleries which make less than twenty-five bushels of grain per day shall be taxed upon their capacity and may be operated as a store-keeper or gauger. Special warehouses may be established where the product of any distillery may be stored and the duty thereon may be deposited, which product shall then become subject to the customs laws.

All special taxes on manufacturers of stills, retail dealers in liquors, and retail dealers in malt liquors are repealed.

The act provides that it shall go into effect July 1, 1888.

The total reduction in revenue made by the act is about \$25,000,000, made up of \$20,000,000 on tobacco and \$5,000,000 on the special taxes removed.

The Democratic members of the Ways and Means Committee have resolved to add this bill to the Miller tariff bill, making it an integral part of the scheme for revenue reduction.

The total reduction by the two bills will be about \$75,000,000.

Mr. Randall says that his tariff bill is completed except as to the cotton schedule. It is understood that the bill reduces the revenue \$17,000,000 on tariff; \$30,000,000 on tobacco; \$30,000,000 by reducing the whisky tax to 50 cents per gallon.

BLOWN TO PIECES.
CAMBRIDGE CITY, Ind., March 7.—A terrible explosion of dynamite occurred yesterday morning on the farm of David Hamilton, near this city. The explosion was felt fifty miles away. Hamilton was loading a wagon with the stuff to about a well at Hagerstown where the crash came. Six tons of dynamite exploded. Man, wagon and house were blown to pieces. The body of Hamilton's shirt were found, and so was the head of his horse, both far from the place where they were blown up. The farm-house was wrecked and a hole fifteen feet deep and twenty-five feet in circumference was found where the dynamite had been kept.

An Editor's Unlucky Day.
St. Paul, Minn., March 7.—Louis E. Baker, editor of the Northwestern Statesman, paper published here, died at his residence in this city yesterday morning. Mr. Baker came to St. Paul in 1873, and the following year resided in getting out the first daily paper published in the city, the Chicago Tribune. In 1875 he became editor-in-chief of the Tribune, and after the consolidation of the Tribune and the Chicago Tribune, he continued to edit the Tribune until 1887, when he was elected editor of the Northwestern Statesman.

Heavy Failure.
PORTLAND, Me., March 7.—Paper of the Winslow Packing Company, which suspended Monday to the amount of nearly \$100,000, is understood to be sold in the national banks of this city. The repeated failure brought against the company by J. Winslow Jones is said to have been one of the causes leading up to the company's present embarrassment, while the rather poor business of the past year or two brought matters to a climax. The estimated value of the company's factories is \$500,000, with a bonded indebtedness of \$100,000.

Arrested for a War-Time Murder.
CANTON, Ill., March 7.—Dr. John W. Stone, a preacher and physician of Springfield, near this city, was yesterday arrested charged with the murder of John R. Bullard in March, 1864. A man named Quackenbush recently confessed that he, Stone, and several other members of a secret society killed Bullard, who was a Union soldier, at Shalish, Ind. Stone protests his innocence.

Prohibition to Go to the People.
ALBANY, N. Y., March 7.—In the assembly Monday night the Democrats made no opposition to the ordering of the prohibition constitutional amendment to a third reading. They say they will not oppose its passage, as in former years, but allow it to pass this Legislature and the next, and then be submitted to a popular vote, which they desire will effectually kill it.

Death of a Well-Known Mason.
SPRINGFIELD, Ind., March 7.—Charles F. Holliday, secretary of the Board of Trade, died Monday of acute pneumonia, aged 44. He was a thirty-third degree Mason, and for many years prominently identified with speculative Masonry, which made him known in secret society circles all over the country.

NOTHING NEW.
No Notable Change in the Burlington Strike—Both Sides Confident of Ultimate Victory—D. & N. Engineers to Strike.

Chicago, March 7.—Conferences of varied degrees of importance were held with the same degree of silence at the strikers' headquarters yesterday. Many consulting dispatches and more comforting checks were received by Chief Arthur, but no evidence of startling developments were apparent. The Knights of Labor assemblies sent to many dispatches as the Brotherhood divisions, but not a word of money.

The officials of the road more than equalled the strikers in their assertions of confidence. They said they had more men applying each day and would soon have all they wanted. To instruct the engineers to draw the line closely on moving Chicago, Burlington & Quincy cars was one of the objects of the conference of grievance committees, which was held Monday. It was decided that steps were taken which it carried out will build a stone wall around the Chicago, Burlington & Quincy system. Its freight department, while admitting that it can only do a local business, claims that the through business does not pay anyway.

The Knights of Labor are anxious to see a general strike. They think such a strike would shut down Monday. It was decided that steps were taken which it carried out will build a stone wall around the Chicago, Burlington & Quincy system. Its freight department, while admitting that it can only do a local business, claims that the through business does not pay anyway.

It was reported last evening that live Pittsburgh, Port Wayne & Chicago and three Great Western cars had refused to haul Chicago, Burlington & Quincy cars. The men quit their engines. It was said, though this was denied by the strikers. At Stratford, Ill., a train of loaded coal cars was side-tracked because the coal belonged to the Chicago, Burlington & Quincy Company. The engineers on the line connecting with the company's tracks refused to haul the train.

The rumors touching renewed attempts at arbitration were denied all around. The strikers had heard nothing of it, and the Chicago, Burlington & Quincy officials denied that the rumor had any foundation. Mr. Sergeant said the Brotherhood was still ready to arbitrate.

Passenger Agent Morion, of the Burlington road, said yesterday that they were now carrying about 65 per cent. of the usual passenger business. More than that percentage of passenger trains were being run, but, of course, there had been a falling off in the number of tickets sold. He admitted that the company would be boycotted by other roads on through freight. This action will of course be at the instance of the Brotherhood, and will be taken by the latter, if the company fails to take action.

A number of accidents were reported yesterday owing to the incompetency of some of the new men employed. At Aurora, Ill., the company has established a training-school in which there are thirty men, who are carefully examined by the master mechanic, made to tell all they know about an engine and then allowed to practice running one up and down the yard. They are also trained in the use of the air brake. The officials claim that the new men are doing well and in a short time will be competent to take out trains.

Massachusetts, March 7.—Assistant Superintendent Harris of the Chicago, Burlington & Northern railroad received notice last evening that the engineers on his road would go out this morning at 10 o'clock. Mr. Harris does not know what advantage of the difficulty has caused this move. The Chicago, Burlington & Northern is not running more than eleven engines, and will have no difficulty in keeping trains in motion. There is a general feeling of uneasiness among the engineers and firemen of all roads entering here. At present they hold a strong feeling was developed against interference of traffic with the Burlington, and an impression prevails in railway circles that it will take but little to make the strike general throughout the Northwest.

St. Louis, March 7.—B. N. Vedder, chairman of the grievance committee of the Locomotive Brotherhood on the Gould system, has returned home from the Chicago conference, and says that the Brotherhood will win its fight. He thinks the strike will not spread to the Gould roads.

CYCLONE IN LOUISIANA.
One Child Killed and Several Dwellings Destroyed at Opelousas.
NEW ORLEANS, March 7.—An Opelousas special says that a cyclone passed over the southern part of the parish on Sunday afternoon. Six dwellings were demolished, and in every case the inmates were injured and the household effects destroyed. The youngest child of Valentine Lavergne was killed. Three brothers, who were keeping a store, lost their house and their goods were scattered for miles. All the members of the family of Louis Bourgeois were injured. The path of the storm was 300 yards wide.

A Begging Man's Money.
NEW YORK, March 7.—Mrs. Anna Justina Margule was found dead in her garret at Hector and Greenwich streets the other day. In searching her premises the police found jewelry and other valuables in her bed to the amount of \$15,000. Mrs. Margule always lived alone in her garret, and went out to work at cleaning windows or doing whatever odd jobs she could find. Her continued complaint was of her great poverty, and she used to beg food and clothing from her neighbors.

Is His Will in the Coffin?
EVANSVILLE, Ind., March 7.—Digging up a coffin to find a will is unusual, but the Indiana Spiritualist Association has asked the circuit judge for authority to search the coffin of Robert Harris, for a will which, it is claimed, will give to that organization most of his estate.

He Died for Love.
KINCINNATI, March 7.—Herman Abbes killed himself Monday night with a revolver. He has left \$12,000 to the woman with whom he was in love—Mrs. Patterson, of St. Paul. She was married, but the courts refused to give her a divorce.

Mr. Gilhooly Sentenced.
DUBLIN, March 7.—Mr. Gilhooly, member of Parliament, was yesterday convicted at Dublin County Court for offenses under the Crimes Act, and sentenced to two months imprisonment without hard labor. His lawyer gave notice of an appeal.

PRICE'S CREAM BAKING POWDER.
FULL WEIGHT PURE.
Most Perfect Made.
